

NOTICE TO MARINERS

No. 17 – 2013

RIVER MEDWAY – BRIDGE REACH

MIDDLE ACORN BERTH

OPERATION TO RAISE SUNKEN LIGHTER

NOTICE IS HEREBY GIVEN THAT on Monday 15th July 2013 an operation will commence to raise a sunken lighter in the MIDDLE ACORN BERTH, BRIDGE REACH, River Medway. The works will be carried out over a period of approximately 2 weeks.

2. The lighter is located in the following approximate position:-
51° 23'. 62 N 000° 30'. 27 E
3. The raising of the lighter will be undertaken by means of a **tidal lift** using **two dumb barges** attached to the lighter by **divers, at low water**. When divers are in the water the appropriate signals will be displayed. Once lifted clear of the river bed by the rise of tide the barges and wreck will be **winched towards Acorn Wharf**. Should there be insufficient clearance to get the lighter alongside at the first attempt the operation will be repeated on a following low water to high water period using shortened lifting wires to the dumb barges. At some point during the period of the operation a **wire will run across the river from the barges to a winch on the shore**. The wire will be **marked and guarded** throughout the operation. Consequently, the **passage between the Middle Acorn Berth and Acorn Wharf will be CLOSED TO NAVIGATION** whilst the operation is underway. Persons in charge of vessels navigating in the vicinity of Bridge Reach must take **due care and attention and pass by at reduced speed**.
4. Further information on the progress of the lifting operation may be obtained from the Medway Navigation Service on VHF Channel 74, callsign "Medway VTS" or telephone (01795) 663025.
5. Admiralty Chart No. 1835 refers.
